

PEQUEÑOS INGENIEROS

Se pretende acercar a los niñ@s al mundo de la ingeniería y la arquitectura, a través de pequeños proyectos potenciando su creatividad e inquietudes. En estos proyectos los alumn@s descubrirán cómo funcionan los mecanismos, los circuitos electrónicos o los circuitos hidráulicos, siempre adaptado a sus edades. Construirán sus propias maquetas, teniendo la oportunidad de descubrir el mundo que les rodea, a través de su experiencia.

» 2 periodos semanales de 25 minutos

» **Horario:** Lunes y miércoles de 11:35h a 12:00h (1º y 2º ESO)

LITTLE ENGINEERS

The goal is to introduce children to the world of engineering and architecture through small projects that encourage their creativity and curiosity. In these projects, students will discover how mechanisms, electronic circuits, and hydraulic systems work—always adapted to their age group. They will build their own models and have the opportunity to explore the world around them through hands-on experience.

» 2 weekly periods of 25 minutes each.

» **Schedule:** Mondays and Wednesdays from 11:35 a.m. to 12:00 p.m. (1st and 2nd Grade Secondary – ES0)

Coordinator:

Noelia Fuentes
