

Support Services

The Brains CEDE team (Centre for Educational Stimulus and Development), with an approach geared towards preventative and educational stimuli in early childhood, focuses its interventions on the student's overall development and provides support to the families during this process.

Specialisms

- » **PSYCHOLOGY:** Talented and gifted, behavioural problems, attention and memory deficit, social skills, emotional intelligence, counselling for families. Diagnostic reports.
- » **SPEECH THERAPY:** Language disorders, articulation, dyslexia, dyscalculia, and dysorthography, reading and/or writing problems, language delay, problems with chewing and swallowing, voice disorders.
- » **ACADEMIC SUPPORT:** Academic support and reinforcement programmes, study techniques, reading comprehension strategies, learning strategies for literacy and Maths.
- » **MOTOR SKILLS:** Psychomotor impairment, body awareness, spatial and temporal awareness, laterality, hypotonia and hypertonia, stimulation in early childhood.
- » **OCCUPATIONAL THERAPY:** Sensory stimuli processing, writing difficulties, play, peer interaction, autonomy (eating, bathing, dressing).

INFORMATION ABOUT THE SERVICE:

The face-to-face activity will be held at Colegio Brains la Moraleja.

- » From Monday to Friday, from 16.00 onwards. If you would like more information about about Brains CEDE, you can get in contact through the SCHOOL SECRETARY'S OFFICE OR AT THE FOLLOWING EMAIL ADDRESSES:

cede@colegiobrains.com
paula.herrera@colegiobrains.com

Group workshops by subject areas

- » **STUDY TECHNIQUES**
A workshop for learning good organisation and study habits, as well as different techniques based on learning styles. The students will practise skills for writing summaries and outlines, which will enable them to study more effectively.
- » **SOCIAL SKILLS AND EMOTIONAL INTELLIGENCE**
This workshop will focus on different aspects of personal and interpersonal development, peer-to-peer communication and emotional management, which will enable the students to enjoy their social relationships.
- » **TALENT DEVELOPMENT**
A space for recognising and discovering talents, interests, and motivations, and for encouraging creativity through different ways of learning and thinking. It is aimed at students who are high academic achievers, and who want to explore new challenges to their knowledge, from a group-work perspective.
- » **SUMMER WORKSHOP TO PROMOTE READING**
In this workshop, our students will learn to enjoy reading in a creative way, and to use tools that will enable them to handle texts and apply techniques for successful comprehension.
