## SPEECH THERAPY DEPARTMENT

The Department of Speech Therapy offers a stimulation and intervention service to help students overcome difficulties that may appear at some point in their school life in the areas of language and communication. Our team of specialists work during the school day both individually or in small groups on pathologies such as:

- » Difficulties in articulating sounds
- » Language Disorders
- » Communication skills
- » Support in the acquisition of reading, writing and calculation skills
- » Intervention in Learning Disabilities (Dyslexia, Dysgraphia and Dyscalculia)
- » Myofunctional therapy associated with breathing, chewing and swallowing problems
- » Voice disorders

The sessions work in a fun way with manipulative and interactive games, as well as with different methodologies and specific exercises for each student in order for them to acquire and integrate learning in a natural way.

- » **SPEECH THERAPY:** Language disorders, articulation, dyslexia, dyscalculia and dysorthography, reading and / or writing problems, language delay, chewing and swallowing difficulties, voice disorders.
- » **PSYCHOPEDAGOGICAL SUPPORT:** Academic support and reinforcement programmes, study techniques, reading comprehension strategies, learning the reading-writing process and mathematical processes.
- » **PSYCHOMOTRICITY:** Psychomotor retardation, body scheme, spatial and temporal orientation, laterality, hypotonia and hypertonia, early stimulation.
- » **OCCUPATIONAL THERAPY:** Sensory integration of stimuli, writing difficulties, games, interaction with peers, autonomy (feeding, bathing, dressing).

## SERVICE INFORMATION:

*The face-to-face activity will be held at Colegio Brains la Moraleja.*

- » From Monday to Friday from 4:00 p.m.
- » If you would like more information about CEDE Brains, you can contact the SCHOOL Secretary's Office OR AT THE FOLLOWING EMAIL ADDRESSES [cede@colegiobrains.com](mailto:cede@colegiobrains.com) or [paula.herrera@colegiobrains.com](mailto:paula.herrera@colegiobrains.com)

## Group workshops by areas

- » **STUDY TECHNIQUES**  
A workshop in which to acquire good organization and study habits, as well as different techniques that depend on learning styles. The skills to elaborate summaries and diagrams that allow the student to study more effectively will be learned.
- » **SOCIAL SKILLS AND EMOTIONAL INTELLIGENCE**  
In this workshop, aspects of personal and interpersonal development, communication among equals and emotional management that helps students to enjoy their social relationships will be worked on.
- » **TALENT DEVELOPMENT**  
A space in which to recognize and discover talents, interests, motivations and enhance creativity through different ways of learning and thought. Aimed at students with high academic performance who want to investigate new knowledge challenges, from a group work perspective.
- » **SUMMER READING MOTIVATION WORKSHOP**  
In this workshop our students will learn to enjoy creative reading and to use tools that will help them manage texts through effective comprehension techniques.
