MOTOR SKILLS

Psychomotor impairment, body awareness, spatial and temporal awareness, laterality, hypotonia and hypertonia, stimulation in early childhood.

OCCUPATIONAL THERAPY

Multisensory integration, motor control, writing difficulties, play, peer interaction, autonomy (eating, bathing, dressing).

GROUP WORKSHOP

BY SUBJECT AREAS

STUDY TECHNIQUES PROGRAMME

A workshop for learning good organisation and study habits, as well as different techniques based on learning styles. The students will practise skills for writing summaries and outlines, which will enable them to study more effectively.

Recommended from Primary 5 upwards.

The content is differentiated according to the needs of each year group. A specific approach for Baccalaureate students.

One weekly 45-minute online or face-to-face session (peninsular time).

- Starting dates in October and February.
- Times to be confirmed.

Total cost of the course (8 sessions) 190€. Materials are included.
